The Advisory Committee on Campus Planning and Stewardship (CPS) provides a forum to review capital plans and projects for the UCSC main campus, 2300 Delaware Avenue, Marine Science Campus, Mt. Hamilton, MBEST, the Silicon Valley Center and off-campus leased properties. This includes space plans, capital improvement programs, long range development plans, master plans, area studies, site analysis, infrastructure capacity studies, individual projects that are either part of the plan or represent new opportunities, and building design. The committee will also review the annual housing plan, the annual report on mitigation measures from the current LRDP EIR, off-campus leases, property acquisitions, requests for the allocation or reallocation of space, and debt capacity analysis.

The main element of all CPS reviews and recommendations will be to correlate land use, proposed projects, and program goals to ensure that campus lands, facilities and leased properties are optimized to meet the objectives of the institution. The reviews and recommendations should include a risk analysis of any trade off that may result from the plan or project.

There are three subcommittees, as follows:

- Capital Improvement Programs Subcommittee
  - Classroom Subcommittee
- Space Assignment Subcommittee
- Campus Sustainability Subcommittee

**Membership:**

Vice Chancellor, Planning and Budget, chair
Dean, Physical & Biological Sciences
Dean, Social Sciences
Dean, Humanities
Dean, Arts
Dean, Engineering
Vice Provost, Academic Affairs
Vice Provost/Dean, Undergraduate Education
Vice Provost/Dean, Graduate Studies
Senior Director, Silicon Valley Initiatives
University Librarian

Vice Chancellor, Business and Administrative Services
Vice Chancellor, Research
Vice Chancellor, Information Technology
Vice Chancellor, University Relations
Associate Vice Chancellor, PP&C
Director, Capital Planning & Space Management
Representative, CPB
Representative, Graduate Students
Representative, Undergraduate (2)

**Meeting Frequency:** Monthly (more frequently, if needed)

**Key 2012-13 Issues:**

- Capital Financial Plan, financing strategies in context of State budget
- Space consolidation, off-campus leases
- Sustainability/achieving UC’s climate neutrality goals
